The following Fiscal Impact Statement and Bill Analysis are prepared for the benefit of the members of the General Assembly, solely for purposes of information, summarization and explanation and do not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.

Explanation

The bill adjusts certain existing bond authorizations, and also authorizes new bonds, for purposes supported by both General Obligation (GO) and Special Tax Obligation (STO) bonds. As further detailed in Table 1 below, GO authorization levels are reduced by a net amount of approximately \$866.4 million. Special Tax Obligation authorization levels are increased by a net amount of approximately \$58.3 million as a result of the bill.

Table 1: Increases and Reductions to GO and STO**Bond Authorizations (in millions)**

Description	Amount \$
General Obligation (GO) Bonds	
Authorizations	299,000,000
Reductions	(1,165,434,510)
TOTAL GO BONDS	(866,434,510)
Special Tax Obligation (STO) Bonds	
Authorizations	60,000,000
Reductions	(1,730,000)
TOTAL STO BONDS	58,270,000

GO Analysis

The net reduction of approximately \$866.4 million to GO authorizations represents a reduction of nearly 33.2% of the unallocated GO authorization balance of \$2.6 billion after the March 2016 State Bond Commission meeting.

An issuance of 20-year bonds, at current market conditions, for the amount of the net reduction in GO authorizations would yield a cumulative debt service cost of approximately \$1.3 billion, including \$409 million in interest. The actual level and timing of savings to the Treasurer's Debt Service account by avoiding such issuance is dependent upon the timing of avoided or reduced bond issuances. However, given that approximately \$6 billion in legislatively authorized bonds remain unissued, any savings to the Debt Service account are likely to be minimal in the short term.

STO Analysis

The net increase in STO authorizations of approximately \$58.3 million represents an increase of 20% over the current unallocated balance of approximately \$288.7 million after the March 2016 State

Bond Commission meeting.

An issuance of 20-year bonds, at current market conditions, for the amount of the net increase in STO authorizations would yield a cumulative debt service cost of approximately \$87.3 million, including \$29 million in interest. However, the level and timing of such cost to the Treasurer's Debt Service account is dependent upon the timing of actual bond issuance.

The Out Years

As discussed above, the fiscal impact to out years is dependent upon the timing of bond issuances by the Treasurer.

OLR Bill Analysis**sSB 11*****AN ACT AUTHORIZING AND ADJUSTING BONDS OF THE STATE FOR CAPITAL IMPROVEMENTS, TRANSPORTATION AND OTHER PURPOSES.*****SUMMARY:**

This bill cancels \$1.059 billion in general obligation (GO) bond authorizations for state and local capital projects and state grants and loans. The bill defers, from FY 17 to FY 18, \$55 million in bonds under the Connecticut State Colleges and Universities (CSCU) 2020 program and \$26 million under UConn 2000. It also cancels a \$25 million authorization for FY 17 under the Connecticut Bioscience Innovation Fund program, and defers it to FY 23.

The bill authorizes \$299 million in new GO bonds for FY 17 for state projects and grant programs, including improvements to the State Office Building (\$181 million) and York Correctional Institution (\$60 million).

It also cancels \$1.73 million in special tax obligation (STO) bonds and authorizes \$60 million in new STO bonds for FY 17.

EFFECTIVE DATE: July 1, 2016

BOND AUTHORIZATIONS FOR FY 17***New Authorizations***

The bill authorizes up to \$279 million in new GO bonds for FY 17 for the state projects and grant programs listed in Table 1. The bonds are subject to standard issuance procedures and have a maximum term of 20 years.

The bill includes a standard provision requiring that, as a condition of bond authorizations for grants to private entities, each granting

agency include repayment provisions in its grant contract in case the facility for which the grant is made ceases to be used for the grant purposes within 10 years of the grantee receiving it. The required repayment is reduced by 10% for each full year that the facility is used for the grant purpose.
